Dear Sempra Employee Giving,

We wish to extend a heartfelt thank you for your donation of \$1250 to our organization. Your donation is greatly appreciated and will help us to continue providing assistance to persons with autism and their families living here in the Coachella Valley.

Autism is a severe developmental disorder that undermines a child's ability to connect with the people around him. It is the most common developmental disability in the United States today. Having a child with autism can be an overwhelming experience, and yet at times an amazing opportunity. The Coachella Valley Autism Society strives to help families who have children with autism through education and support. We encourage families to maintain a positive outlook while acquiring knowledge and taking action to ensure the quality of education and social programs for their children.

On behalf of the Board of Directors and, most importantly our members, thank you again for your generous support.

Sincerely,

*Gina Davis*
